

ERBC WEEKDAY  
1050 Edwards Road  
864-292-0194

**\*\*\*ATTENTION\*\*\***  
**Wednesday May 8, 2024**  
**Early dismissal**  
**For**  
**WEEKDAY**  
**K & MDO**  
**Classes**

**11:30 am**  
**Wednesday, May 8**

ATTENTION ALL Friday PARENTS  
**ALL WEEKDAY children (K & MDO)** will be dismissed at 11:30am on Wednesday, May 8 so that our staff can attend a **STAFF APPRECIATION LUNCHEON** at 12 o'clock.

**WEEKDAY School Calendar:**

April 1 - NO SCHOOL – Easter Break  
April 19 - WEEKDAY OPEN (Public school closed)  
April 25 - Family Night 6:30 pm  
May 9 & 10 - Water Days  
May 12 - Mother's Day  
May 22 - WEEKDAY Last Day / MDO & Kindergarten  
May 22 - K5 Graduation 9:30am  
June 9-12 - VBS @ ERBC 6-8:30pm (register May 1)  
July 2-31 - Summer Camp (Tues. & Wed.) 9a-1p  
August 28, 29 - Scheduled visits with your new teacher  
Sept 3, 2024 - 1<sup>st</sup> Day WEEKDAY 24-25 school year

**Eclipse \*Monday, April 8**

We will continue to operate our regular hours on Monday, April 8<sup>th</sup>, 2024. There will be a partial eclipse happening that afternoon starting around 2:00PM, so please be mindful of your children's eyes as you leave to get in your car. The full eclipse (85% for us) will be around 3:00 so it really shouldn't interfere with our pickup.

**ERBC WEEKDAY FAMILY NIGHT**

**April 25th @ 6:30**

Please join us at **6:30** in the sanctuary for our Family Night program. Immediately following the program, join us in the gym for snacks. On your way out, please walk through the classroom displays in the hallway. Our classroom displays will be up in the hallways for a few weeks for all to enjoy on the days they come in. We can't wait to share this special time with you and your families. More details to come!

Weather may be chilly some days. Please send a jacket for outside play.

## Mrs. Padgett's K3 Class

March has been full of all things science! We had the best time learning about weather! The water cycle was fun to act out and I hope they sang the Water Cycle song at home for you. We learned weather words, explored

wind with making pinwheels and testing out objects to see if we could blow them across the table—feathers were the easiest to blow.

◆ We wrote our names in the clouds (shaving foam), ◆ made kites to fly on the playground, ◆ made a rain stick, ◆ and made a walking rainbow (see picture). Science is just so much fun to learn about.

We thanked God for all he has given us to learn about and for being in control of everything—even the

We finished the month learning about Easter! We thanked Jesus for loving us. They enjoyed our egg hunt and learned the empty tomb was the BEST gift of all.

weather!

*John 10:14 "I am the Good Shepherd; I know my sheep."*

## Ms. Dillard's K4 Class

We marched into March with the Ultimate K4 experience; the Princess/Knight Ball. We paraded through the whole church greeting our fellow classmates and even the office staff. Each student was presented to the court; learned how to ballroom dance and then had a fabulous feast. The children were challenged to catapult, jousting and an obstacle course. This event concluded our Fairytale unit. In K4 we've started learning pop-corn words such as: the, is, and,

you, a and I. So have your child pick out these words in any type of written content. They have phrases that help them learn these words so you may hear them say "salt AND pepper."

I believe we may have a few engineers in our class. During the construction theme the children had to translate pieces of blocked shaped paper constructed on a flat medium to an actual 3D creation. They performed exceptional! We also covered a weather unit where we made water cycle baggies. The students were so excited to see condensation happening in their science experiments!

The children came back from spring break with all sorts of tales of travel or stay at home vacations. Even though the Easter Story can be stark and scary for the children; they know the end of the story, so all is well. Ending the month with the celebration of Easter allows us to appreciate great God's love for each and every one of us.

## Mrs. Mahaffey's K5 Class

In K5 we began the month of March having fun with the crazy, mixed up, funny stories of Dr. Seuss. We celebrated with wearing green like Green Eggs and Ham, wearing hats like Cat in the Hat, and then dressing as our favorite characters from Dr. Seuss books. As we had some

beautiful and ever-changing weather this month it was the perfect time to dive into clouds, wind, rain, and rainbows. We learned what the expression "raining cats and dogs" means and even made our own book of funny sayings! Then we were so "eggs" cited to learn about oviparous animals (animals that hatch from eggs). We did a stem project where each child was given a Peep candy chick and they had to come up with a safe way for it to land when we launched it over the railing in the gym. We were thrilled that all Peeps landed safely! Miss Penny purchased some "Sea Monkeys" eggs for us to watch hatch and grow.
